COST: \$20 Members
/ \$25 Non-Members /
\$15 Students with ID

Nate Boyd, EI, LEED AP BD+C / City of Orlando Sustainability Initiatives

With over 16 years of experience in building automation and energy management, Nate is leading the City’s efforts to reduce energy waste and improve the response capabilities of the Facilities Management division through the deployment of building automation systems, utility service submeters, LED lighting, and solar photovoltaic systems. Nate’s efforts have helped the City reduce energy consumption by 31% across the portfolio of buildings that have been renovated to-date.

Jeff Sheffield, Executive Director / North Florida Transportation Planning Organization

Jeff Sheffield, Executive Director, North Florida Transportation Planning Organization: Mr. Sheffield directs the independent regional transportation planning agency for Duval, Clay, Nassau and St. Johns Counties that plans, prioritizes and programs transportation improvements in the region, including the long range transportation plan and five-year transportation improvement program. Jeff oversees a wide range of initiatives and projects aimed at moving the region forward, including freight mobility studies, intelligent transportation systems and alternative fuels. The TPO’s North Florida Clean Fuels Coalition has developed an Alternative Fuels, Vehicles and Infrastructure Plan for the region and has catalyzed several first-of-their-kind alternative fuel projects in the region.

Justin Chrzanowski, CEM / Energy and Sustainability in the East Region

As Program Manager on CBRE corporate Energy & Sustainability platform, Justin guides clients energy and sustainability solutions on a daily base. He spends time helping each client develop a strategy and then guide them through executing that strategy through low/no cost items, capital projects, employee engagement efforts, and energy procurement strategies.

While helping clients meet their strategy, Justin spends time with numerous strategic partners developing new projects and exploring products in the market place that can improve the strategies of current clients.

NOTE: Current Chapter members are welcome to bring guests and clients at \$20 member rate with their registration! AND a discount is available for 5+ attendees from the same firm. All attendees will receive an attendance certificate to use for confirming CEU's as appropriate.
No shows will be billed.
If you have any questions or must cancel, please send an email message to scurcic@stellar.net.
